

Defense Systems Technical Area Tasks (DS TAT)

DS TAT is an Indefinite Delivery Indefinite Quantity (IDIQ) Multiple Award Contract for Research & Development (R&D) and/or Advisory & Assistance Services related to R&D efforts.

It includes the following focus areas of interest:

- ◆ Advanced Materials
- ◆ Autonomous Systems
- ◆ Directed Energy
- ◆ Energetics
- ◆ Military Sensing
- ◆ Non-Lethal Weapons and Information Operations
- ◆ Reliability, Maintainability, Quality, Supportability, and Interoperability
- ◆ Survivability and Vulnerability
- ◆ Weapons Systems

Awarded 9 Jun 2014 with a \$3B ceiling, DS TAT offers customers clear answers to their most pressing procurement questions and concerns, such as:

DOES THIS CONTRACT VEHICLE MAKE MY JOB EASIER?

- 
Easy-to use: We provide templates, guidance, and dedicated full-time customer support staff for supportive, friendly customer service to all IAC customers.
- 
Low Customer Shared Direct Cost (CSDC): Our 1.52% CSDC for full assisted acquisition is lower than the industry average of 3-5% across other contract vehicles.
- 
Quality Contractors: Highly regarded companies with industry leading experience in DS TAT focus areas and an expansive network of industry and academic partners.

DS TAT awardees are:

- | | |
|-----------------------------------|-------------------------------|
| ◆ Alion Science and Tech. | ◆ Mantech TSG-2 Joint Venture |
| ◆ Battelle Memorial Institute | ◆ Prescient Edge Corp. |
| ◆ Booz Allen Hamilton | ◆ Strategic Analysis Inc. |
| ◆ EOIR Technologies, Inc. | ◆ TASC Inc. |
| ◆ Georgia Tech Research Institute | ◆ URS Federal Services |
| ◆ MacAulay-Brown Inc. | ◆ Wyle Laboratories |

IS THIS CONTRACT VEHICLE COMPLIANT WITH FEDERAL GOVERNMENT GUIDELINES?

- 
Small Business Requirements: IACs are compliant with small business requirements; selection process ensures best value to meet technical requirements.
- 
Better Buying Power: External review certified IACs enhance Better Buying Power (BBP); use of IACs enables customers to contribute to BBP objectives.

DOES THIS CONTRACT VEHICLE OFFER ME FLEXIBILITY AND INNOVATION?

- 
Flexible Contract Structure and Contract Clauses: Allows for fixed price and cost reimbursable structure; compliant with OSD contracting policy. Allows work at any security clearance level, ability to work in theater, etc.
- 
Innovative Approach: IACs focus on innovation by using a technical approach and business model that ensure new research gets a head start by building on past experience.

We look forward to supporting your procurement efforts and enhancing your mission success. Should you have any questions about what we offer, please feel free to email dtic.belvoir.iac.mbx.csc@mail.mil or call 937-567-0404 to speak with a DS TAT customer support staff member.
