

# DACS: Where Did It Go?

## Past and Present

### DACS PAST

```

```

DACS (ITT) operated the Basic Center of Operations (BCO) and was the prime contractor providing R&D analysis on DACS Technical Area Tasks (TATs).

### DACS PRESENT

```

```

What was formerly covered by DACS, IATAC, and MSIAC will now be covered by one BCO, CSIAC. This aligns with the with SNIM scope /structure and eliminates redundant overhead.

SNIM continues to provide R&D analysis for Mod/Sim, IA, and Software Analysis via customer-funded TATs.
